

# ONE SYSTEM. BUILT AROUND HOW YOU ALREADY WORK.

We are not asking you to change how you run your business. We are building software that runs the tedious half of it for you.

## A NORMAL WEEK RIGHT NOW

- Writing the same customer information down three times
- Estimates that never got followed up on
- Invoices sent late, or forgotten entirely
- Digging receipts out of the truck at tax time
- Telling the crew where to go, one text at a time
- Guessing which jobs actually made money
- Doing the office work after doing the real work

## THE SAME WEEK, RUN BY YOUR SYSTEM

- The lead comes in and gets answered without you
- The estimate goes out branded, in minutes
- Follow-up happens whether you remember or not
- The schedule and crew sheets build themselves
- The invoice sends on completion, payment link attached
- Receipts file themselves from a photo, tied to the job
- The thank-you and review request go out on their own

## HOURS BACK

The nights and Sundays that paperwork used to eat

## NOTHING SLIPS

Leads, estimates, and invoices stop falling through

## YOU LOOK BIGGER

Every customer touchpoint branded and consistent

## REAL NUMBERS

What each job actually made, after fuel and labor

## ALREADY RUNNING REAL BUSINESSES

One core system. Three very different operations.

### A TREE SERVICE COMPANY

*Field crews, multi-day jobs, equipment-heavy work*

Ran on phone calls, a notebook, and handwritten invoices. Now every lead, estimate, crew day, invoice, and receipt lives in one place. Estimates and invoices go out branded and automatic. The owner sees what each job actually made after fuel and equipment instead of guessing. Now on its 38th version.

### A LAND AND FARM OPERATION

*Property work, seasonal jobs, heavy paperwork*

The second business built on the same core, reshaped around their work instead of forced into someone else's. It took over most of the weekly bookkeeping scramble and cut the hours spent chasing paperwork. A small operation now reads like a much bigger one to every customer who touches it.

### A YOUTH SPORTS ORGANIZATION

*Tryouts, rosters, families, dues*

Same engine, completely different world. Player evaluations, roster building, schedules, payments, and parent communication run through one place instead of spreadsheets, group texts, and a folder of checks. Proof the core is not built for one industry - it is built to be shaped.

## THE NEXT TWO PAGES ARE NOT HOMEWORK.

They are mostly checkboxes, about twenty minutes, and there are no wrong answers. Whatever you tell us about how you work is exactly what gets built. *We run our own company on this same core - client work, proposals, invoicing, and follow-up. We do not sell what we do not use every day.*

## SECTION 1 - HOW THE BUSINESS RUNS TODAY

Answer plainly. There are no wrong answers - we are copying your process, not replacing it.

## 1. THE BUSINESS &amp; THE PEOPLE

Business name: \_\_\_\_\_

Owner / main contact: \_\_\_\_\_

Years in business: \_\_\_\_\_ Employees: \_\_\_\_\_

## WHAT DO YOU SELL?

- ☐ One-time service jobs
- ☐ Recurring or contract service
- ☐ Custom build / fabrication to order
- ☐ Products or materials
- ☐ Appointments or consultations
- ☐ Other: \_\_\_\_\_

## WHO DOES WHAT TODAY?

Answers the phone: \_\_\_\_\_

Prices and estimates work: \_\_\_\_\_

Schedules the work: \_\_\_\_\_

Runs the crew / shop: \_\_\_\_\_

Sends invoices and collects: \_\_\_\_\_

Handles receipts and expenses: \_\_\_\_\_

Follows up with past customers: \_\_\_\_\_

## THE NUMBERS

Jobs per week: \_\_\_\_\_ Average job: \$ \_\_\_\_\_

Busy season: \_\_\_\_\_ Slow season: \_\_\_\_\_

Crews or trucks running: \_\_\_\_\_

## REALITY CHECK

- ☐ Owner is still working in the field / shop daily
- ☐ Everything runs through one person's phone
- ☐ Work gets missed when that person is busy
- ☐ Growth is limited by paperwork, not demand

## IN THE OWNER'S WORDS

If one thing ran itself tomorrow, it would be:

\_\_\_\_\_

\_\_\_\_\_

What are you tired of doing by hand?

\_\_\_\_\_

\_\_\_\_\_

## 2. HOW WORK COMES IN

## WHERE DO LEADS COME FROM?

- ☐ Phone calls
- ☐ Website form
- ☐ Google / Google Business Profile
- ☐ Facebook or Instagram
- ☐ Referrals from past customers
- ☐ Contractors, builders, or designers
- ☐ Repeat customers
- ☐ Trucks, signs, word of mouth
- ☐ Other: \_\_\_\_\_

## WHERE DOES A NEW LEAD GET WRITTEN DOWN?

- ☐ Notebook or paper
- ☐ Notes app or text messages
- ☐ Spreadsheet
- ☐ Software: \_\_\_\_\_
- ☐ Nowhere - we just remember it
- Typical response time: \_\_\_\_\_
- ☐ Leads have been lost or forgotten before

## HOW DO YOU PRICE A JOB?

- ☐ Walk the job in person
- ☐ Photos or video from the customer
- ☐ Over the phone
- ☐ Measurements, drawings, or takeoff
- ☐ Price list or template
- ☐ From experience - it is in my head

## HOW DOES THE ESTIMATE GO OUT?

- ☐ Verbally on site
- ☐ Text message
- ☐ Handwritten
- ☐ Email or PDF
- ☐ Software: \_\_\_\_\_
- Estimates/month: \_\_\_\_\_ Close rate: \_\_\_\_\_
- ☐ We follow up on estimates that do not close
- ☐ We require a deposit before starting

## 3. DOING THE WORK &amp; GETTING PAID

## SCHEDULING &amp; THE FIELD

- ☐ Paper calendar or whiteboard
- ☐ Google Calendar
- ☐ Text or phone call to the crew
- ☐ Software: \_\_\_\_\_
- ☐ It is in my head
- ☐ Jobs commonly run more than one day
- ☐ We track hours worked per job
- ☐ We track fuel, equipment, or materials per job
- ☐ We take before and after photos

Photos end up here: \_\_\_\_\_

## INVOICING

- ☐ Handwritten or carbon copy
- ☐ Word or Excel
- ☐ QuickBooks
- ☐ Square, Stripe, or PayPal
- ☐ Other: \_\_\_\_\_

Invoice goes out: same day / weekly / when I get to it

## PAYMENT

- ☐ Cash
- ☐ Check
- ☐ Card
- ☐ Bank transfer or ACH
- ☐ Cash App, Venmo, Zelle
- ☐ Financing

Average days to get paid: \_\_\_\_\_

Who chases unpaid invoices: \_\_\_\_\_

## RECORDS &amp; THE BACK OFFICE

- ☐ Receipts live in the truck, a drawer, or a phone
- ☐ Bookkeeper or accountant handles it
- ☐ We know what each job actually made
- ☐ We know our true cost per man-hour
- ☐ We know what each machine costs per hour to run
- ☐ We price from our own numbers, not what others charge

Reports you actually look at: \_\_\_\_\_

Biggest time waster each week: \_\_\_\_\_

## SECTION 2 - WHAT THE SYSTEM NEEDS TO DO

Check what applies. N = need it now L = add it later Circle the three that would help most.

## 4. CORE OPERATING MODULES

## LEADS &amp; CUSTOMERS

- ☐ Website and ad leads drop straight into the system
- ☐ Lead pipeline: new, contacted, estimated, won, lost
- ☐ Automatic reply the moment a lead comes in
- ☐ Customer file with full job and payment history
- ☐ Notes, calls, and texts logged to the customer

## ESTIMATES

- ☐ Estimate builder using your own pricing and line items
- ☐ Branded estimate PDF emailed automatically
- ☐ Customer approves or signs online
- ☐ Deposit requested at approval
- ☐ Automatic follow-up on estimates not yet answered

## SCHEDULING

- ☐ Job calendar for the whole company
- ☐ Crew assignment and daily job sheets
- ☐ Multi-day and phased job tracking
- ☐ Owner status board - every job at a glance
- ☐ Customer notified when crew is on the way

## INVOICING &amp; PAYMENT

- ☐ Invoice built from the completed job
- ☐ Branded invoice emailed automatically
- ☐ Online payment link on the invoice
- ☐ Payment recorded and receipt sent back
- ☐ Automatic reminders on past-due invoices
- ☐ Thank-you email after every completed job

## 5. FIELD, SHOP &amp; MONEY TRACKING

## IN THE FIELD / IN THE SHOP

- ☐ Works on a phone or tablet, not just a desk
- ☐ Crew uploads job photos from their phone
- ☐ Time tracking by person and by job
- ☐ Shop hours vs. install hours tracked separately
- ☐ Equipment list with run hours and cost per hour
- ☐ Fuel and mileage tracking
- ☐ Materials used per job
- ☐ Purchase orders and supplier ordering
- ☐ Subcontractor assignment and payouts
- ☐ Change orders during the job
- ☐ Final walkthrough or punch list sign-off
- ☐ Warranty and callback tracking

## MONEY &amp; PAPERWORK

- ☐ Receipts filed from a photo, tied to the job that caused them
- ☐ Job costing - what each job actually made
- ☐ Contract, permit, and insurance storage
- ☐ Everything backed up to Google Drive automatically

## COST INPUTS - WHAT PRICING GETS BUILT ON

Billed rate: shop \$ \_\_\_\_ /hr field or install \$ \_\_\_\_ /hr

Crew cost per hour incl. taxes and insurance: \$ \_\_\_\_\_

Fuel \$ \_\_\_\_ /gal Gallons on a typical day: \_\_\_\_\_

Monthly overhead (rent, insurance, phones): \$ \_\_\_\_\_

- ☐ True cost per man-hour calculated, including non-billable time
- ☐ Cost per hour per machine - payment, fuel, maintenance, repairs
- ☐ Overhead spread across jobs so pricing actually covers it
- ☐ Estimated hours vs. actual hours compared on every job
- ☐ Profit per job, per crew, and per service type

## 6. GROWTH, REPORTING &amp; INDUSTRY FIT

## FOLLOW-UP &amp; GROWTH

- ☐ Review request sent after every completed job
- ☐ Seasonal or recurring service reminders
- ☐ Past-customer re-marketing list
- ☐ Referral source tracked and credited
- ☐ Branded emails written in your voice

## REPORTING THE OWNER WILL ACTUALLY USE

- ☐ Revenue by week, month, and service type
- ☐ Where leads come from and what each source is worth
- ☐ Close rate by estimator or by service
- ☐ Crew productivity and cost per job
- ☐ Outstanding invoices and aging
- ☐ Dashboard on the owner's phone

## INDUSTRY-SPECIFIC BUILD (CHECK ONE)

- ☐ Field service - tree, land, dirt, paving, electrical
- ☐ Cabinet / millwork shop - cut lists, CNC files, drawings, finish schedule, shop vs. install
- ☐ Healthcare or clinic - appointments, intake forms, privacy-aware records
- ☐ Sports organization - tryouts, rosters, teams, dues
- ☐ Church or ministry - events, volunteers, giving records
- ☐ Professional or financial - client review cadence, compliance-aware records
- ☐ Retail or product - orders, inventory, fulfillment
- ☐ Other: \_\_\_\_\_

## 7. PRIORITIES - FILL THIS OUT TOGETHER BEFORE THE MEETING ENDS

## Three headaches to kill first

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_

What does fixing these three save per week?

\_\_\_\_\_

## Must exist on day one

\_\_\_\_\_

\_\_\_\_\_

Can wait until phase two: \_\_\_\_\_

Software you pay for today: \_\_\_\_\_

Monthly cost: \_\_\_\_\_ Must connect to: \_\_\_\_\_

## Who will use it and on what

Users: \_\_\_\_\_

Devices: phone / tablet / desktop

Target go-live date: \_\_\_\_\_

Follow-up meeting set for: \_\_\_\_\_

Notes: \_\_\_\_\_
